Great Customer Benefits Program!

**De-clutter your home
before you move,
here our top tips:**

- 1. Begin Early** - don't leave it to the last minute
- 2. Be Ruthless** - if it's more than a year since you used or wore something, throw it out!
- 3. Label boxes clearly** - then there is no time wasted rumaging!
- 4. Edit your music & books** - why keep books you'll never read again, bad CD's or vinyl records you can't play?
- 5. Broken items** - Old electrical appliances, chipped crockery, old furniture & outgrown children's toys should all be donated or recycled.
- 6. Don't forget the shed** - a common place to store stuff you don't need - out of sight - out of mind!
- 7. Hold a Garage Sale** - turn your old junk into cash, then throw away or donate everything that's left over.
